FOR IMMEDIATE RELEASE

KYM Reports FY2025 Results, Manufacturing Segment demonstrates resilience amid market challenges

Financial Highlights:

- KYM reports revenue of RM84.865 million with PBT of RM3.009 million for FY2025
- Strategic focus on sustainability and innovation drives KYM forward

PETALING JAYA, 26 March 2025, KYM Holdings Bhd reported a total revenue of RM84.865 million for the financial year ended 31 January 2025 ("FY2025") compared with RM101.131 million in the preceding financial year ended 31 January 2024. Profit before tax ("PBT") for FY2025 stood at RM3.009 million, lower than RM13.299 million in financial year ended 31 January 2024 ("FY2024") which benefited from a one-off gain on disposal of the land and buildings.

For the current quarter ended 31 January 2025, the Group posted a revenue of RM19.596 million, compared to the revenue of RM26.146 million in the corresponding quarter last year. The Manufacturing revenue came in lower, primarily due to the selling price pressure amid heighten market competition. As a result, PBT for the current quarter declined to RM0.303 million, compared with the PBT of RM0.412 million in the corresponding quarter last year.

Despite lower revenue and market challenges, the Manufacturing segment demonstrated strong performance in FY2025, reporting a PBT of RM6.756 million, a significant surge from RM1.949 million in FY2024. The remarkable improvement was driven by the Group's ongoing cost optimization initiatives, strategic procurement efforts, and a focused business strategy emphasizing pricing and product quality. However, the overall results were partially offset by a one-off impairment loss on trade receivable amounting to RM0.750 million.

PROSPECTS

Amid macroeconomic uncertainties, possible reintroduction of tariffs and changes in foreign policy which may result in additional cost pressures and fluctuations, the Group remains steadfast in adapting to the evolving conditions. The Group will continue to focus on strategic priorities to enhance both the top line and bottom line.

"We are positioning ourselves for long term success by navigating market competition, enhancing our product portfolio and capturing opportunities from the growing demand for sustainable solutions. The attainment of FSSC 22000 certification marks a significant milestone as we drive initiatives to grow our market share in the F&B sector. As we move forward, we remain focused on innovation, sustainability, and delivering excellence," said Darren Lee, KYM's Chief Executive Officer.

The Board remains cautiously optimistic that the Group is able to achieve satisfactory performance in the coming financial year.
