FOR IMMEDIATE RELEASE

KYM Reports Improved Manufacturing Performance for Q2FY2027

Financial Highlights:

- Q2FY2027 revenue increased by 3.2%, while Manufacturing segment PBT rose to RM0.95 million
- KYM Group continues strengthening manufacturing operations while exploring suitable new growth platforms to broaden the Group's earnings base

---

PETALING JAYA, 15 September 2026, KYM Holdings Bhd today announced its financial results for the second quarter ended 31 July 2026 ("Q2FY2027"), reporting a revenue of RM18.83 million, an increase of 3.2% from RM18.25 million in the corresponding quarter of the previous financial year. The improvement was mainly attributable to stronger cement-segment sales in the Multiwall Industrial Paper Sacks division.

The Group's loss before tax (LBT) narrowed to RM0.13 million from RM0.61 million in the corresponding quarter of the previous financial year. Meanwhile, the Manufacturing segment reported a profit before tax ("PBT") of RM0.95 million, compared with RM0.32 million previously, supported by higher sales volume, tighter cost controls, improved production efficiency and continued commercial discipline.

For the first half ended 31 July 2026, the Group's revenue increased to RM38.88 million from RM38.46 million in the corresponding period. Higher revenue in the Multiwall Industrial Paper Sacks division more than offset the contraction in the Carton Box division.

The Group recorded a PBT of RM0.05 million for the first half, reversing a LBT of RM0.61 million in the preceding financial period. Manufacturing segment's PBT increased to RM2.09 million from RM1.14 million, mainly driven by higher sales volume despite lower average selling price. The improved performance was also supported by favourable material costs and foreign exchange movements, tighter cost controls, enhanced production efficiency, and effective procurement strategies.

PROSPECTS

The positive economic outlook is expected to support business activity and to create additional opportunities for the Group's products and solutions, particularly in higher-growth and value-added segments. The Group will continue to accelerate its market and customer diversification efforts, expanding its presence in alternative and higher-growth segments, and strengthening customer collaboration through its Packaging-as-a-Service ("PaaS") model.

"Notwithstanding the favourable domestic economic outlook, the Group remains mindful of external risks, including volatility in global commodity prices, geopolitical uncertainties, rising input cost and continued competitive pricing pressures," said Darren Lee, Chief Executive Officer of KYM Group.

"We will continue to strengthen our manufacturing operations through disciplined execution and improved operational efficiency. At the same time, the Board continues to explore suitable new growth platforms, both organically and through strategic investments, to broaden the Group's earnings base beyond manufacturing operations. Any opportunity will be carefully assessed based on its strategic fit, growth potential and ability to create sustainable long-term value for our shareholders," he added.

The Group remains focus on executing its strategic initiatives and strengthening its competitive position and delivering more stable performance for the remainder of the year.

--- End ---

About KYM Holdings Bhd (金控股)

KYM Holdings Bhd ("KYM"), through its subsidiaries, is a specialist in the manufacture and sale of high-quality multi-wall industrial paper sacks and corrugated carton boxes.
